

Research-led intelligence. Built and operated by OHIIHO.

OHIIHO | ADVERSARY ENGAGEMENT INTELLIGENCE

OHIIHO builds and operates HIIH Surface. Our tech founder brings three decades of offensive and defensive cybersecurity practice. The company is headquartered in Singapore, with a European entity in Estonia.

PRODUCT

Managed Surfaces turn selected hostile interactions into Findings and supporting context for defined security missions.

OPERATIONS

OHIIHO runs the specialized engagement environment. Customer and partner teams use the results in their own security processes.

RESEARCH

Published studies let customers examine the observations, reasoning, and defensive content behind the approach.
